Skandhaguru Polymer's

GRS CERTIFIED COMPANY

Welcome Message

Welcome to Skandhaguru Polymerss, your trusted partner in high-quality, sustainable polymer manufacturing since October 6, 2023, in Tiruppur. With 15+ years of experience, our 4000 sq. ft. facility is equipped with advanced machinery, ensuring both quality and Eco-friendly practices. Our production prioritizes waste reduction and energy efficiency, with a capacity of 50 tons per month (2-3 tons daily). We offer a wide range of polymers, including printed options ready in 3-5 days and plain polymers in 2-3 days.

G.R.S and SGS certified, we provide Eco-conscious solutions for local and export markets. Skandhaguru Polymerss—where quality meets sustainability.

P.SARAVANAN

Chief Executive Operations

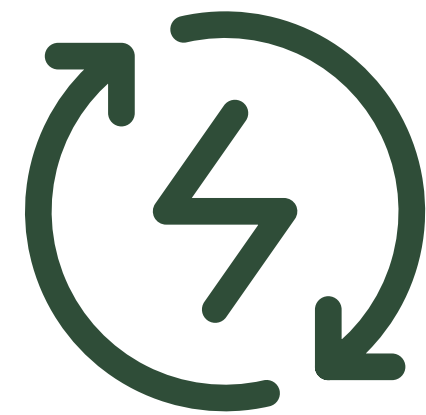

About Us

Skandhaguru Polymerss specializes in Eco-friendly polymers like LDPE, HDPE, PP, and poly-bags, tailored for diverse industries. Committed to sustainability, we use responsibly sourced materials, reduce waste, and adopt energy-efficient practices to deliver high-quality products with minimal environmental impact.

Our customization poly-bags and polymer solutions are designed to offer both flexibility and high performance, adapting to each client's unique specifications. From durability to size and functionality, our products are crafted to uphold the highest standards, empowering industries to lower their carbon footprints while maintaining operational excellence.

Our Mission

We aim to lead the industry in sustainable polymer solutions, innovating to reduce environmental impact while meeting the needs of diverse sectors. Our mission is to deliver high-quality, Eco-friendly products that support a greener future and help businesses thrive sustainably.

MISSION ONE

Our goal is to set the standard for sustainable polymer solutions in the industry.

MISSION TWO

Driving innovation to minimize environmental impact.

MISSION THREE

We strive to deliver premium products that advance sustainability and support businesses in thriving responsibly.

MISSION FOUR

Eco-friendly polymers designed for sustainability and superior performance.

Our Vision

At Skandhaguru Polymerss, our vision is to be a global leader in sustainable polymer solutions, driving innovation and Eco-conscious practices across industries. We aim to empower businesses to adopt greener alternatives, reduce environmental footprints, and achieve lasting positive impacts on the planet. Through our commitment to sustainability, we envision a future where high-performance polymers and environmental responsibility go hand in hand.

100%

Sustainability

Crafting 100% sustainable polymer solutions for a greener tomorrow.

15+

Years Of Experience

15+ years of experience, our 4000 sq. ft. facility is equipped with advanced machinery, ensuring both quality and Eco-friendly practices.

250+

Clients

We are proud to have earned the trust of over 250 clients and counting!

PRODUCTS

Explore our diverse range of high-quality polymers, designed to meet the demands of various industries. From plain to printed options, we deliver tailored solutions with fast turnaround times and Eco-friendly practices.

Recycled Polybags

Our recycled poly-bags, made from post-consumer and industrial waste, combine durability with Eco-friendly sustainability.

Biodegradable Polybags

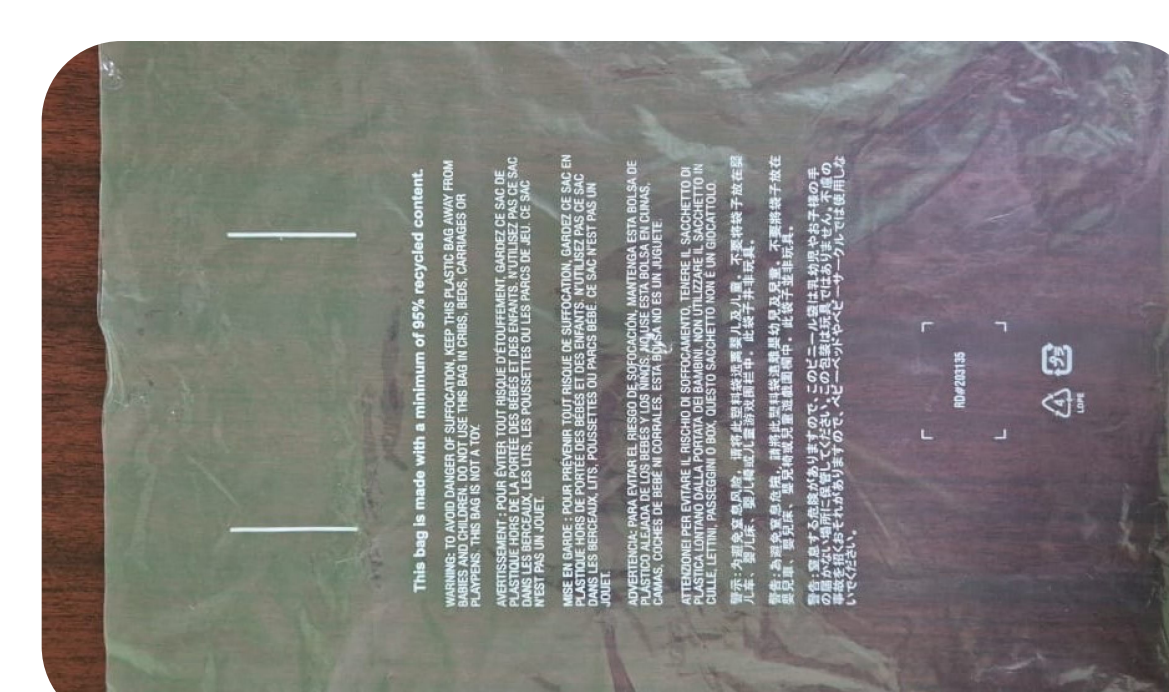

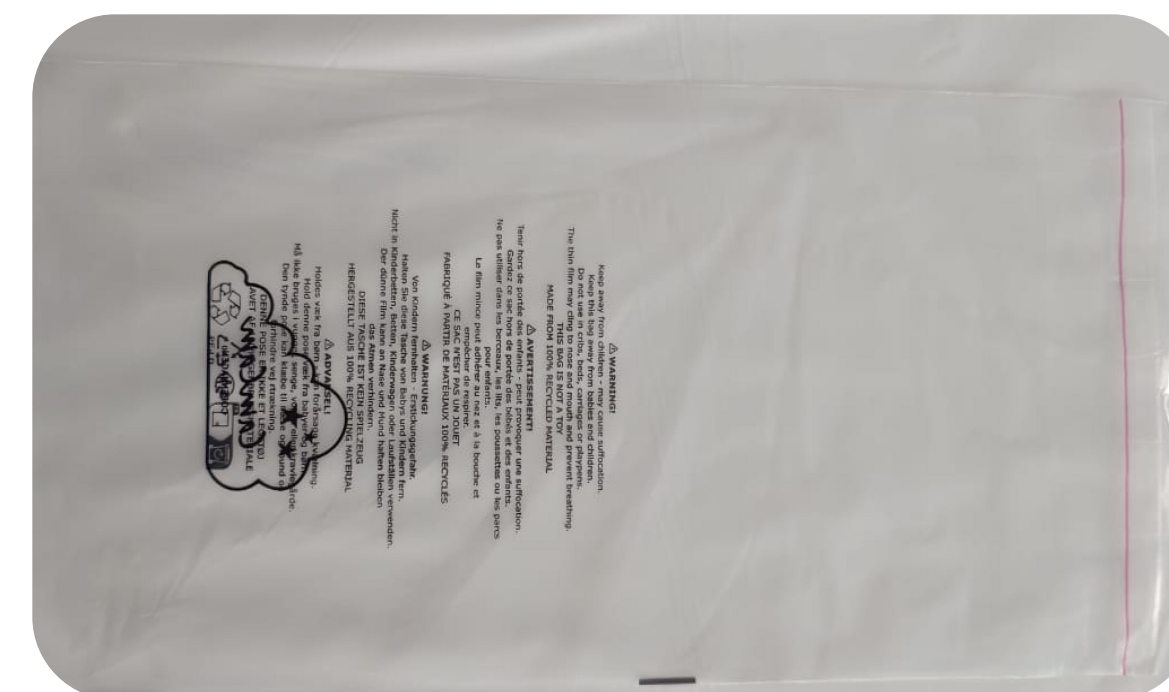

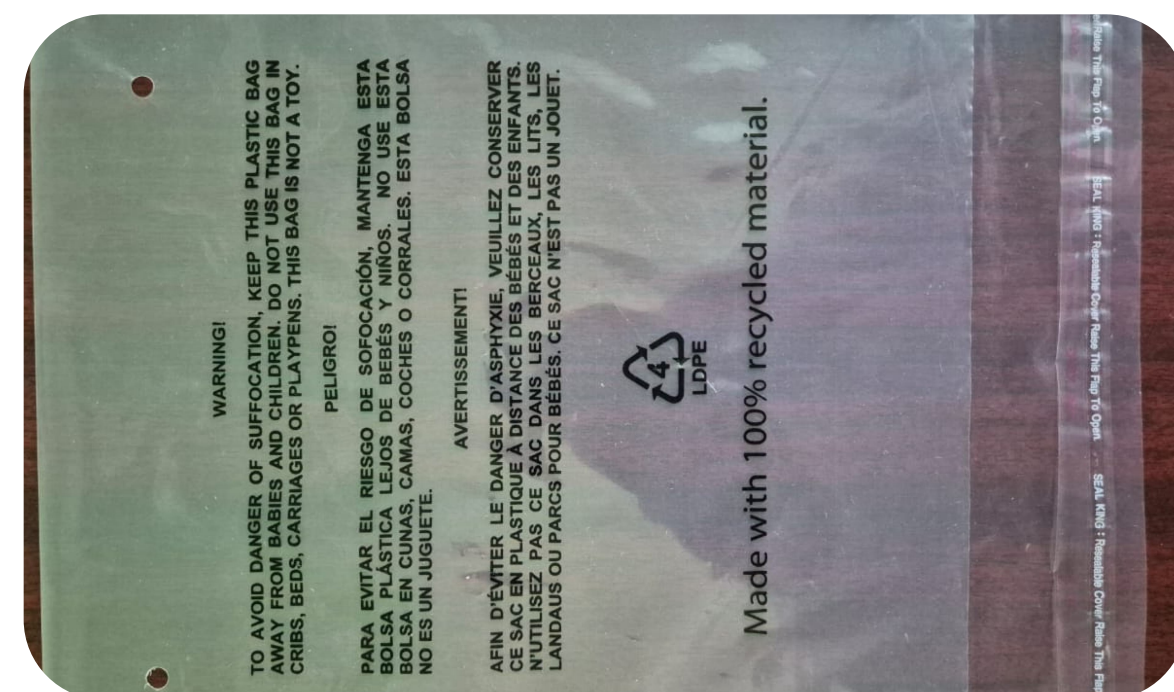

Our biodegradable poly-bags, made from plant-based materials, naturally decompose, offering a strong, Eco-friendly alternative to traditional plastics.

LDPE Polybags

Our LDPE poly-bags, made from low-density polyethylene, provide durable, flexible, and Eco-friendly packaging.

Printed Polybags

Our printed poly-bags offer customization branding in an Eco-friendly package, perfect for retail and promotions with sustainability in mind.

PRODUCTS

We offer PP, BOPP, HDPE, and Pouch Polybags, designed for durability, flexibility, and optimal protection. Suitable for diverse industries, they provide customizable, high-quality, and eco-friendly packaging solutions. Enhance your packaging with strength, clarity, and sustainability.

PP Polybags

PP poly-bags, made from polypropylene, are strong, flexible, and moisture-resistant. Customization and Eco-friendly, they offer a sustainable packaging solution for various industries.

BOPP Polybags

BOPP poly-bags, made from bi-axially oriented polypropylene, provide clarity, strength, and high visibility while being recyclable and Eco-friendly.

HDPE Polybags

Our HDPE poly-bags are strong, lightweight, and puncture-resistant, ideal for industrial and retail use, with a focus on sustainability.

Pouch Polybags

Our pouch poly-bags offer flexible, customization packaging in Eco-friendly materials, providing excellent protection for various products.

PRODUCTS

We offer Zipper & Reclosable Polybags, Custom-Printed Polybags, Polybag Rolls & Sheets, and Industrial Polybags, providing durable, customizable, and eco-friendly packaging solutions for all industries.

Zipper & Reclosable Polybags

Zipper and recyclable poly-bags provide secure, reusable packaging, offering a sustainable alternative for retail, food storage, and organization.

Custom-Printed Polybags

Our custom-printed poly-bags let you personalize packaging with logos and designs, offering durability and protection while promoting your brand.

Polybag Rolls & Sheets

BOPP poly-bags, made from bi-axially oriented polypropylene, provide clarity, strength, and high visibility while being recyclable and Eco-friendly.

Industrial Polybags

Our industrial poly-bags are strong, durable, and Eco-friendly, designed for safely transporting bulk items.

Certified GRS, SGS In Polymer Manufacturing

Skandhaguru Polymerss is proud to hold certifications from GRS (Global Recycled Standard) and SGS, a testament to our commitment to excellence in polymer manufacturing. These certifications ensure that our processes meet the highest standards of quality, safety, and sustainability, reinforcing our dedication to environmentally responsible practices and reliable, high-quality products.

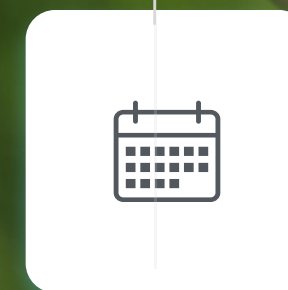

SUSTAINABILITY

GO TO SUSTAINABLE SOLUTIONS

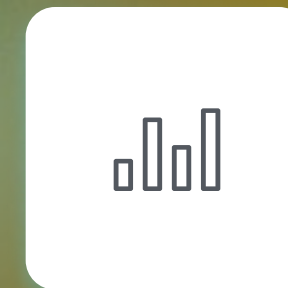

WHY CHOOSE SUSTAINABLE POLYBAGS?

Environmental Impact, Brand Image, Compliance with Regulations, Circular Economy Commitment.

CIRCULAR ECONOMY COMMITMENT

Eco-Conscious Manufacturing Processes, Educating and Empowering Our Clients

OUR FUTURE GOALS

Increasing Use of Biodegradable and Renewable Materials

Innovative Polymer
Solutions for a Global Market.
